Hannam Upholstery first opened its doors in 1982, and we've been serving East Yorkshire and the rest of the UK ever since. We offer a full range of craftsman-led services, from bespoke small local projects to major national work, and everything else in between.

Over recent years Hannam Upholstery has completed some very high profile projects.

These include a prestigious Harley Davidson showroom in Amsterdam and the original food court in Kingston upon Hull's Princess Quay shopping centre.

Another major on-going project has been work on the various seating areas on P&O ferries and designing the furnishings for a number of very select bars and restaurants across the country.

Whatever job you have in mind, why not see if we can help. We can offer you a No Obligation quote now, so please contact us for more information.

Every home is unique and many people find off-the-peg furniture simply doesn't quite fit.

The sofa that looks fantastic on the TV adverts somehow takes up too much space, is dwarfed by the proportions of your room, obscures a precious feature or simply doesn't sit right. Maybe you would like THAT shape of sofa but in a totally different fabric or colour. Maybe you simply don't want to discover that you have exactly the same suite in your individually designed lounge as one of your dinner party guests has as pride of place in their home!

There are many reasons to go bespoke and at Hannam Upholstery Company we love a challenge. The sofa in the pictures below, for example, was designed and built for a client who longed to own a traditional Chesterfield but couldn't find one big enough to look right in their huge lounge.

Hannam Upholstery offers a wide range of services, to ensure your beautiful home gets the unique upholstered furniture it deserves.

\* Full antique restoration service

\* Bespoke furniture built to your exact specifications

\* Re-upholstery of your current furniture, refurbished redesigned and even reshaped

\* We have cut three seaters down to two seaters, and we have stretched two seaters out to three seaters
