HERIB

Low Vision Exhibition

Monday 12th March 2018

An exhibition of equipment and services for people with visual impairment is to be held at HERIB on Beverley Road in Hull on Monday 12th March from 10.00am until 3.00pm.

Organisations attending the exhibition include Blind Veterans, Hull and District Talking Magazine, Calibre Audio Library, the Hull Macular Group and the local authority sensory teams.

Several suppliers of low vision equipment will also be attending, showcasing some of the latest equipment such as video magnifiers, computer software and mobile phones as well as aides to assist with independent living.

Services Manager Alison Stannard said of the exhibition "This is a really good opportunity for people to experience the services and equipment available to people with visual impairment, and also to learn more about the services offered by HERIB. Having people from each organisation on hand to explain services and demonstrate equipment is an ideal opportunity to learn more about living with sight loss.

For further information on the Low Vision Exhibition, please contact HERIB on (01482) 342297.
